

The two commercial that I have watched is listed below:

<https://ring.com>

[Ring TV Spot, 'Black Friday Deals: Take in the Magic' - iSpot.tv](#)

I have watched a commercial for ring cameras and security. It showed in the commercial about the features that can be used in ring app. It has features where you can talk to someone live also turn on the security feature where you can secure your home when you're away. The cameras can be bought from the company website. It was a very helpful commercial for someone who needs a live camera and home security. The commercial doesn't provide the company website, but I think it would be helpful if the commercial provides the company website. It can be googled but if it shows on the website, it will be very helpful for lot of people to find the product or website easily. Also if the product is on sale, the link for the product will be more helpful to find in the website.

<https://www.gatorade.com/>

[Gatorade Water TV Spot, 'Always in Motion' Song by 101 kam - iSpot.tv](#)

Another commercial that I have watched is for Gatorade water. The commercial is titled "always in motion". It's 46 seconds long. The commercial shows the central theme revolves around staying hydrated during physical activities. The commercial doesn't show the website of the company and it can be bought from the Gatorade website. I think it will be helpful if the website can show the product website for the viewers so that they can buy the product by searching the website easily.
